

Award of completion

PRESENTED TO

K M Mashrur Rahman

for the successful completion of the course **"The primary health care approach: A short course"**

Issued by
WHO Academy

More information

Issued on 10/06/2026

Admission Criteria

None

Course description

Learners engaged in activities to learn about how to equip health professionals, health system leaders, community representatives and partners with a practical overview of the primary health care (PHC) approach.

Course activities

Learners successfully completed the presented learning activities on how to demonstrate a shared understanding of the PHC approach as described by WHO and articulate its importance (the 'why' of PHC); identify and describe evidence-informed strategies to integrate and implement the three essential components of PHC (the 'what' of PHC), and; explain how health system levers can be activated and measured to shift (reorient) health systems towards the PHC approach (the 'how' of PHC).

Course outcomes

The overall learning outcome requires learners to engage with the online learning materials on a practical overview of the primary health care (PHC) approach.

Assessment

The learner has successfully engaged with and completed all presented learning activities in the course.

Disclaimer

This award does not certify the learner as a trained health worker qualified to practice in this topic area. National and local certificates for qualification must be adhered to.
